

Aror University of Art, Architecture, Design & Heritage Sukkur

Department of AI / MMG and Cyber Security

Applications of ICT CSC-102

BS-I Fall 2025

Lab # 01

Name of the student: _____ SAP ID: _____

Department and Section: _____ Date: _____

Lab Instructor: Rashida Naz

Lab Objective:

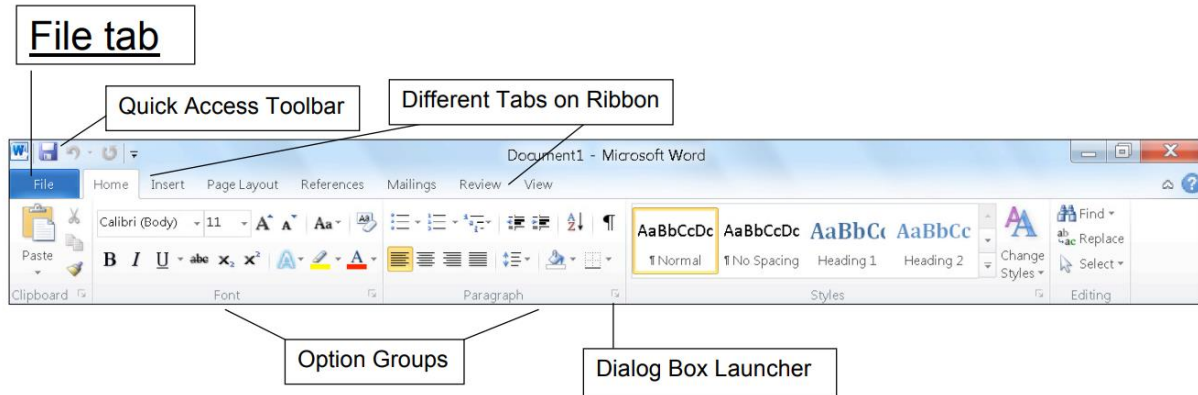

*To understand and apply the functionalities of the **Home tab** in MS Word, including text formatting, paragraph alignment, styles, clipboard tools, and editing features, for creating well-structured and professional documents.*

Lab Outcomes:

After completing this lab, students will be able to:

- 1. Use the Clipboard group (Cut, Copy, Paste, Format Painter) effectively.*
- 2. Apply Font group tools such as bold, italic, underline, font style, size, and color.*
- 3. Format text using subscript, superscript, text effects, and highlight options.*
- 4. Align, indent, and adjust line/paragraph spacing using the Paragraph group.*
- 5. Apply bullets, numbering, and borders to text and paragraphs.*
- 6. Use Styles group to maintain consistency in document formatting.*
- 7. Utilize the Editing group (Find, Replace, Select) for quick document management.*

WORD basics:

Home tab

Insert tab

Page Layout tab

References tab

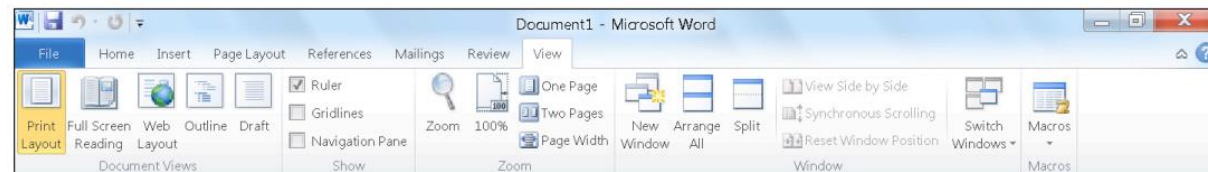

Mailings tab

Review tab

View tab

How to Launch MS WORD?

1. Using the Start Menu:

- Click the Start button (usually in the bottom left corner of your screen).
- Locate and click on the Microsoft Word application, which might be within a folder like "Microsoft Office".

2. Using the Search Function:

- Click the Start button or the search icon on the taskbar.
- Type "Word" or "Microsoft Word" in the search bar.
- Select the "Microsoft Word" application from the search results.

3. Using a Desktop Shortcut:

- If you have a shortcut icon for Word on your desktop, double-click it to open the application.

Lab File Saving & Submission Checklist

- ☐ Open MS Word and complete your lab work.
- ☐ Go to File → Save As.
- ☐ Choose the location (Desktop / Documents / USB drive).
- ☐ Type your file name in this format: Lab01_YourName_Section_SapID.docx (Example: Lab01_AliAhmed_A_12345.docx).
- ☐ Select Save as type: Word Document (*.docx).
- ☐ Click Save.
- ☐ Again go to File → Save As → Browse.
- ☐ Change Save as type to PDF (*.pdf).
- ☐ Use the same file name format: Lab01_YourName_Section_SapID.pdf.
- ☐ Click Save.
- ☐ Upload the PDF file to the correct Lab corner on Google Classroom.

Upload your lab files to Google Classroom in the Assignments corner. For example, the Lab 01 file should be uploaded in the Lab 01 corner, the Lab 02 file in the Lab 02 corner, and so on.

Task# 1 Type the following text in MS word.

Aror University of Art, Architecture, Design & Heritage Sukkur

Student Bio Data Form

BS Pakistan Studies

Name: Abc Khan

Father's Name: XYZ

Surname: Khan

Last Qualification: Intermediate

Semester: 1

Task # 2

- a. Make the heading bold.
- b. Change the font family of heading and set it to "Times new Roman"
- c. Change the font family of remaining text to "Times new Roman"
- d. Set the font size of the heading to 18
- e. Set the font size of remaining text to 14.

Your output should be like this:

Aror University of Art, Architecture, Design & Heritage Sukkur

Student Bio Data Form

BS Pakistan Studies

Name: Abc Khan

Father's Name: XYZ

Surname: Khan

Last Qualification: Intermediate

Semester: 1

Task # 3:

- Change the text color of the heading to red.
- Change the text color of the remaining text to green.
- Highlight the heading with yellow highlighter.
- Highlight the remaining text with light gray.

Your output should look like this.

Aror University of Art, Architecture, Design & Heritage Sukkur

Student Bio Data Form

BS Pakistan Studies

Name: Abc Khan

Father's Name: XYZ

Surname: Khan

Last Qualification: Intermediate

Semester: 1

Task # 4:

Clear all the formatting. Comment on what happened when you cleared all the formatting.

Your output should look like this.

Aror University of Art, Architecture, Design & Heritage Sukkur

Student Bio Data Form

BS Pakistan Studies

Name: Abc Khan

Father's Name: XYZ

Surname: Khan

Last Qualification: Intermediate

Semester: 1

Task # 5: Write the following text:

Hello today is my first lab of Applications of ICT.

Select the text and apply “change case” option available in the font group on the text given above. Change the case to:

- a. sentence case
- b. upper case
- c. lower case
- d. toggle case
- e. Capitalize each word.

Task # 6: create a bulleted list as follows:

- Computer
- Hardware
- Software
- Data
- User

Task # 7: create another bulleted list:

Computer

- Hardware
 - Input devices
 - Output devices
 - Processing devices
 - Storage Devices
- Software
 - Application software
 - System software

Task # 8: create a numbered list.

1. Computer
2. Hardware
3. Software
4. Data
5. User

Task # 9: create a numbered list as follows:

Computer

- Hardware
 - Input devices
 - Output devices
 - Processing devices
 - Storage Devices
- Software
 - Application software
 - System software

Task # 10: write =rand(2) then press enter. A random paragraph will be generated. For example:

On the Insert tab, the galleries include items that are designed to coordinate with the overall look of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages, and other document building blocks. When you create pictures, charts, or diagrams, they also coordinate with your current document look.

You can easily change the formatting of selected text in the document text by choosing a look for the selected text from the Quick Styles gallery on the Home tab. You can also format text

directly by using the other controls on the Home tab. Most controls offer a choice of using the look from the current theme or using a format that you specify directly.

- a. Apply Left Alignment, Right Alignment, and Center Alignment and Justify alignment.

Task # 11: Use Line and Paragraph Spacing option 2.5 on the paragraph generated using =rand(1)

On the Insert tab, the galleries include items that are designed to coordinate with the overall look of your document. You can use these galleries to insert tables, headers, footers, lists, cover pages, and other document building blocks. When you create pictures, charts, or diagrams, they also coordinate with your current document look.

Task # 12: Apply “Sort Text” option on the following text.

- a. Sort the following text in ascending order.

Zebra
Monkey
Elephant
Giraffe
Hippo
Hedgehog

- a. Sort the following text in descending order

10001
20003
123
456
876
678
9876
234
23456

Learn by doing Tasks:

1. Utilize the Editing group (Find, Replace, Select) for quick document management.

- Use **Find** to search for a specific word in your document.
- Replace that word with another word using the **Replace** option.
- Use **Select** to highlight all occurrences of a particular word.
